## DIRECTOR MESSAGE

Dear Parents/Students

Successful people and unsuccessful people don't vary greatly in their abilities. They vary in their desires to reach their destination. So what we exactly need is not a mere desire to succeed but a 'burning desire'. Your 'burning desire' keeps you charged and motivated to run for an extra mile. You need to trust your potentiality as Swami Vivekananda says, "Every human is potentially divine."

Just be passionate about your desire or dream. Here in ISA, you will find yourself in a entirely different environment to redesign your dream, reconstruct your confidence, reshape your methods to excel academically and in life. Our proven track records speak about our ambience, highly experienced and dedicated team of teachers, updated study aids and matchless methodology.

Now it's your turn to get yourself associated in the Marathon of success and narrate your story as a champion. I would like to make you kick-start your day by saying a simple thing ... You know what you are but you don't know what you can be.

"Dare to desire big. Plan big. Do big ! Be big ! With your journey till the destination"
